

AMI SILVER POTASSIUM CYANIDE

Appearance	White Cubic Crystals
Molecular Formula	KAg(CN) ₂
Silver (Ag) content	53.5-54% by Mass(Min.)
Solubility	Soluble in water
Application	Used for silver plating
Packaging	Customized packing as required
	1kg , 5 kg , 10kg

AMI SILVER CYANIDE

Appearance	Cream White Powder
Molecular Formula	AgCN
Silver (Ag) content	80% by Mass(Min.)
Cyanide (CN) content	27.5% by Mass(Min.)
Insoluble matter	0.1% by Mass(Max.)
Application	Used for silver plating
Packaging	Customized packing as required
	1kg , 5 kg , 10kg

AMI SILVER NITRATE

Appearance	Colorless Crystals
Molecular Formula	AgNO ₃
Silver Nitrate content	99.8% by Mass(Min.)
Silver(Ag)	63.5% by Mass(Min.)
Chloride(Cl)	0.001% by Mass(Min.)
Application	Electroplating , Silvering of Mirrors & in Chemical Analysis
Packaging	Customized packing as required
	1kg , 5 kg , 10kg
